Om brann og brannvern

Hei! Jeg skal fortelle om da jeg var på skolen og fikk besøk av to menn. De lærte oss mye om brann og forebygge en brann. Vi lærte også mye om elektrisitet og hva elektrisitet er. Det er mye både barn og voksne kan gjøre for å forhindre en brann. Først skal jeg fortelle hva barn kan gjøre for å forhindre en brann.

Vi kan ta ut stikkontakt. Vi kan fjerne klær fra ovnen. Ha tilsyn vis vi lager mat. Slå av Tven med på/av knapp. Lamper på stå stadig, ikke brenn med fyrstikker eller lighter. Rense strøer på vaskemaskin. Tilsyn til stearinlys, ikke ha dyr eller små barn sammen med vifteovn i tilfelle den skulle velte. Ikke bruke masse strøm i skjøte ledningene.

Det er mye vi barn kan gjøre, men voksne har hoved ansvaret i hjemmene og di må ta ansvar for de viktigste sakene. Her er noen eksempler: De må være forsiktig med hvordan de hanterer gass. Kjekke røykvarsler. Bruke flere stikkontakter i stedet for skjorteledninger. Ha tilsyn til vifteovner. Rense støv på elektriske apparater. Ha tilsyn til skjorteledninger hvis det blir for varmt. Skru av kaffeetrakter og dra ut ledningen. Og det var noen eksempler på hva voksne må. Men hvis det skulle begynne å brenne så kommer det du skal gjøre hvis det skulle skje. Du må lukke dører, vinduer redde dem som er i huset for eksempel rope brann brann. så må du varsle brannvesenet. så må de slukke brannen. Men hvis det bare er en liten brann så kan du slukke den selv.

Appendix

1. The first part of the report deals with the general situation of the country and the position of the various groups of the population. It is a very interesting and informative study of the social and economic conditions of the country.

2. The second part of the report deals with the political situation of the country. It is a very interesting and informative study of the political conditions of the country.

3. The third part of the report deals with the cultural situation of the country. It is a very interesting and informative study of the cultural conditions of the country.

4. The fourth part of the report deals with the economic situation of the country. It is a very interesting and informative study of the economic conditions of the country.

5. The fifth part of the report deals with the social situation of the country. It is a very interesting and informative study of the social conditions of the country.

6. The sixth part of the report deals with the legal situation of the country. It is a very interesting and informative study of the legal conditions of the country.

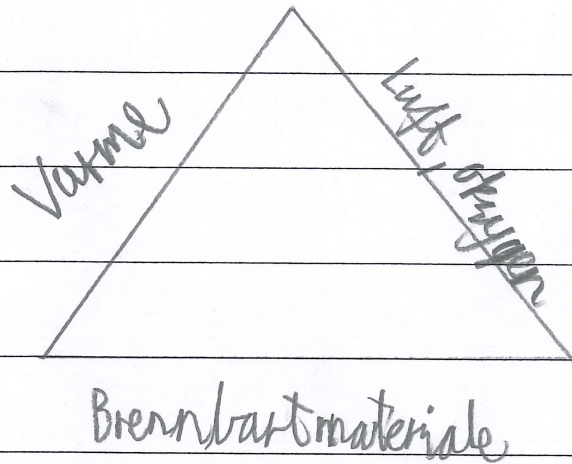

7. The seventh part of the report deals with the administrative situation of the country. It is a very interesting and informative study of the administrative conditions of the country.

8. The eighth part of the report deals with the military situation of the country. It is a very interesting and informative study of the military conditions of the country.

9. The ninth part of the report deals with the foreign relations of the country. It is a very interesting and informative study of the foreign relations of the country.

10. The tenth part of the report deals with the future of the country. It is a very interesting and informative study of the future of the country.

Og dette var det jeg lorte på Brannvern. Håper dere lorte noe fra meg nå. Dere må huske å passe på så det ikke begynner å brenne. Hode

ALP EGDN

1. The first part of the report is a description of the project. This includes the objectives, the scope, and the methodology. The objectives are to develop a system that can be used to manage the data of the project. The scope is to develop a system that can be used to manage the data of the project. The methodology is to develop a system that can be used to manage the data of the project.

2. The second part of the report is a description of the system. This includes the architecture, the components, and the data. The architecture is to develop a system that can be used to manage the data of the project. The components are to develop a system that can be used to manage the data of the project. The data is to develop a system that can be used to manage the data of the project.

3. The third part of the report is a description of the results. This includes the performance, the accuracy, and the reliability. The performance is to develop a system that can be used to manage the data of the project. The accuracy is to develop a system that can be used to manage the data of the project. The reliability is to develop a system that can be used to manage the data of the project.

4. The fourth part of the report is a description of the conclusions. This includes the summary, the recommendations, and the future work. The summary is to develop a system that can be used to manage the data of the project. The recommendations are to develop a system that can be used to manage the data of the project. The future work is to develop a system that can be used to manage the data of the project.
